

Phantom

*"Highly maneuverable,
gosh-darn fast, and
unbelievably fun!"
- Mens Journal*

Phantom II

Fun & High Performance!

- Design inspired by the world-record Lightning Recumbents!
- Frame and fork 100% Chromoly.
- 44" wheelbase for unsurpassed handling, ride comfort and braking performance.
- 26" rear wheel for a big gearing advantage over smaller wheels.
- Oversize stem with option of "V" or *exclusive* drop handlebars.
- Shoulder-high ergofit seat, with large mesh bottom, for maximum power and comfort, available in three sizes for a perfect fit.
- Both seat and cranks adjust, maintaining optimum weight distribution for riders from 4' 10" - 6' 8"!
- Low seat height for less wind resistance, "idiot-proof" braking, more power and an exhilarating ride.
- Water bottle braze-on and dropout eyelets.

With the same components and drop handlebars of the legendary Lightning P-38, the *Phantom II* outperforms all other recumbent brands, and most road bikes.

Exclusive Lightning design features provide incredible comfort, high speed, great climbing, and crisp handling.

For cycling superiority, the *Phantom II* is hard to beat!

About the Phantoms...

Experience recumbent bicycle comfort, fun, safety and outstanding performance with the Lightning *Phantom*!

The *Phantom* combines the record-breaking design geometry and seat of the legendary P-38 with a strong chromoly monotube construction for the FASTEST recumbent in its class.

The *Phantom* was designed by experienced engineers using data gained from two decades of top level HPV racing around the world, 20 world records, and feedback from hundreds of Lightning owners.

No other recumbent bicycle company has this level of technical expertise and real world experience.

Lightning engineers have designed a very comfortable ride into the *Phantom*; superb stopping and handling characteristics; a high cruising speed; and exceptional durability.

The overall performance of the *Phantom* surpasses all other comparably priced bicycles, and many costing hundreds of dollars more.

High performance and convenience accessories such as a custom-designed fairing, seat bags, panniers, and many other accessories are available for the *Phantom*.

The Race-Winning Lightning Phantom:

HPRA Super-Stock Class Champion
HPRA Female Class Champion

The **Phantom** is great for any club, recreational, touring, or commuting cyclist who wants a high performance, fun to ride, and very comfortable bike. It's perfect for short or long trips, and can race with the best of them.

Perhaps the best all-around recumbent on the market, the **Phantom** is just what you're looking for!

What our customers say...

"I still haven't gotten around to mailing in my registration -just can't stop riding long enough to search for the serial number!

- Bob

"Thanks again for your help. I don't ride my Litespeed as much, as my **Phantom** saves a lot of wear and tear on the body!

- Jeff

"The **Phantom** has arrived and has exceeded all expectations. It was bought as an "upgrade" from a BikeE; the **Phantom** is MUCH faster and WAY more comfortable!"

- Andre

"Just a note to thank you for this amazing bike. I'm the guy that weighs in at 300 lbs for whom you recently customized a **Phantom**. With the half raised handle bars it is magnificent and I thank you very much!"

- J. Miller

"We are the only riders (out of over 1000) who are still smiling at the end!"

- Susan M.

Overheard at the Wildflower Century

"I bought a **Phantom** about three months ago, and wanted to let you know how much I am enjoying it.

I can no longer ride a conventional bicycle [due to rheumatoid arthritis]. I end up in tears after just a few miles, and have to cut the ride short.

The **Phantom** is now my primary transportation, to and from work 3 to 4 times per week, 20 - 30 miles round trip.

I go shopping on my **Phantom**, I ride all over the county. It is a joy to ride, and it is fast. The seat is comfortable.

This is what bike riding is meant to be."

- e-mail from a happy customer
